# Message from the Chairman

One of the duties of the Missouri Gaming Commission is to compile an annual report which encompasses an account of the commission's activities over the past fiscal year. This report, which is mandated by law, includes a summary of the status of each licensed gaming facility; a report of gaming tax and admission fee collections; an analysis of the gaming markets in Missouri and a comprehensive look at each individual riverboat gaming facility. The annual report also features the impact of gaming taxes on employees, home dock communities, patrons and state revenues. I am sure you'll find this to be a significant source of information on all aspects of riverboat gaming in Missouri, and am pleased to present this report on FY2011.

The Missouri Gaming Commission embarked on uncharted territory in the past fiscal year. This commission was the first to ever issue a last available casino license. Proposition A, which passed in 2008, capped the number of riverboat gaming casinos at 13. The closure of the President, St. Louis in July of 2010 made a license available.

The first step was a meeting with all interested parties. Then a timeline was developed. MGC enlisted the help of the Missouri Department of Economic Development staff who formulated a comprehensive statewide market analysis. We knew by Constitutional law the riverboat gaming casino must be located on the Missouri or Mississippi river. What we did not anticipate was the level of interest from a wide variety of locations. In the end, there were three viable candidates: Casino Celebration and the City of St. Louis, Paragon Gaming and the City of Sugar Creek, and Isle of Capri and the City of Cape Girardeau. Our process was transparent. We conducted monthly meetings, community forums in the cities where a license was being sought, and public hearings in Jefferson City, which gave the companies chosen by the cities, a chance to show us how the 13th license would benefit the State.

On December 1, 2010, Isle of Capri Cape Girardeau, LLC, was selected as the candidate for priority investigation. The license will be awarded after all requirements of the Riverboat Gambling Act and regulations have been met and when the doors open to the public. The \$125 million facility is scheduled to open at the end of 2012.

After the nine-month search process concluded, the commission was then ready to focus on fine tuning programs recently implemented. The Commission took an active interest in, the promotion of, and the current review of our minority and women business (MBE/WBE) program. It was time to refine our direction, apply certain exclusions, and hire a full-time MBE/WBE compliance auditor. We are working on improving our MBE/WBE program, and monitoring the MBE/WBE efforts of the 7th largest industry in the state.

I'm proud of the work of the Missouri Gaming Commission. We are a diverse group, representing a wide variety of interests, and at the same time, regulating Missouri's riverboat gaming casinos with the State's best interests in mind.

# Message from the Executive Director

In Fiscal Year 2011, as with each year, the main focus of the Missouri Gaming Commission was steady regulation. We meted out discipline for those who violated the rules and regulations, and conducted licensing investigations which ensured those who chose to operate a riverboat gaming casino, or a supplier company, were in compliance with the laws of Missouri. The Missouri State Highway Patrol (MSHP) played a vital role in our regulation by providing enforcement on the State's riverboat gaming casinos, and by assigning personnel to conduct background investigations. We are grateful for their assistance. It is also important to note, riverboat casinos and gaming suppliers fund these MSHP positions.

The Missouri Gaming Commission faced certain challenges over the past fiscal year. Selecting a candidate for the 13th riverboat gaming casino license took up a majority of our time. Commissioners and staff are to be commended for their hard work. Every Commissioner was in attendance at each scheduled meeting, community forum and public hearing. There was no doubting the significance of this action.

Other challenges during FY 2011 included flooding which affected gaming operations at Lady Luck, Caruthersville, and Terrible's Mark Twain, LaGrange. MGC Enforcement Division staff reworked rules to accommodate new aspects of gaming for the removal of the \$500 dollar loss limit and changing technology, including downloadable credits on electronic gaming devices, and the security of casinos' critical IT systems. Staff was also at the ready during the legislative session to respond to requests by lawmakers and to monitor possible action. I believe staff faced these issues with competence and dedication.

Another critical aspect of our operation is monitoring tax collection. In FY 2011, MGC oversaw collections of \$341,416,127 in tax receipts for education. We also monitored the collection of the two-dollar admission fee of which half garnered \$54,279,049 dollars for the State. See page 12 of this report for a list of those who benefit from this fee.

As we move into FY 2012 staff will be focused on accountability, responsibility and oversight as we monitor all phases of construction at Isle of Capri Cape Girardeau, LLC. Our purview will begin with the first shovelfull of dirt to the day the doors are open to the public. Our regulatory duty includes all steps in this progression.

Also on our to-do list for FY 2012 will be programs to increase our efficiency through automation, and restructuring. We are reviewing all individual programs IT has developed to look for ways to implement them in other areas, trim the excess and make our work efficient. It's time to reorganize and simplify, all the while continuing our day-to-day work of regulating an important industry in the State. We have goals in sight, and MGC will remain vigilant for the people of Missouri.

# Charitable Gaming

Charitable gaming includes licensed bingo and other associated games such as pull-tabs, merchandise coin boards, and other “free” no charge promotional events. Bingo was legalized in 1980 and came under the Missouri Gaming Commission on July 1, 1994. The operation of bingo and the other associated games is restricted to qualified licensed, religious, charitable, fraternal, veteran, and service organizations. The Charitable Games Division also licenses hall providers, suppliers and manufacturers of bingo products.

All proceeds over and above the actual cost of conducting a bingo game must be used for lawful, charitable, religious or philanthropic purposes of the organization, and no part of the net earnings may inure to the benefit of any individual member of the organization. Bingo proceeds collected by not-for-profit organizations are used to fund various projects such as veterans homes, Relay for Life, drug awareness programs, prevention of child abuse, cancer care and research, Alzheimer’s care and research, Kidney Foundation, Make-A-Wish Foundation, Boy & Girl Scouts, Ronald McDonald House, various religious organizations, Boys State, scholarships, sight and hearing care for impoverished citizens, transportation services to burn centers, and many more.

The bingo industry introduced a new line of pull-tab products during Fiscal Year 2009 that are played in conjunction with the bingo equipment such as the ball selection equipment and the display board. These pull-tabs are referred to as event tickets. Some of the licensees have introduced the event tickets to their players and have been quite successful in increasing their overall pull-tab sales.

More than \$100 million has been generated in tax revenue since bingo was legalized. All bingo tax is deposited into the Proceeds for Education Fund. A comparison of tax paid per file period for July 2010 through June 2011 reflects a continued decline in taxes reported for bingo paper sales; however, taxes reported for pull-tab sales continues to increase since the introduction of event tickets. The chart below represents the actual tax reported for bingo paper and pull-tabs for the past five fiscal years.

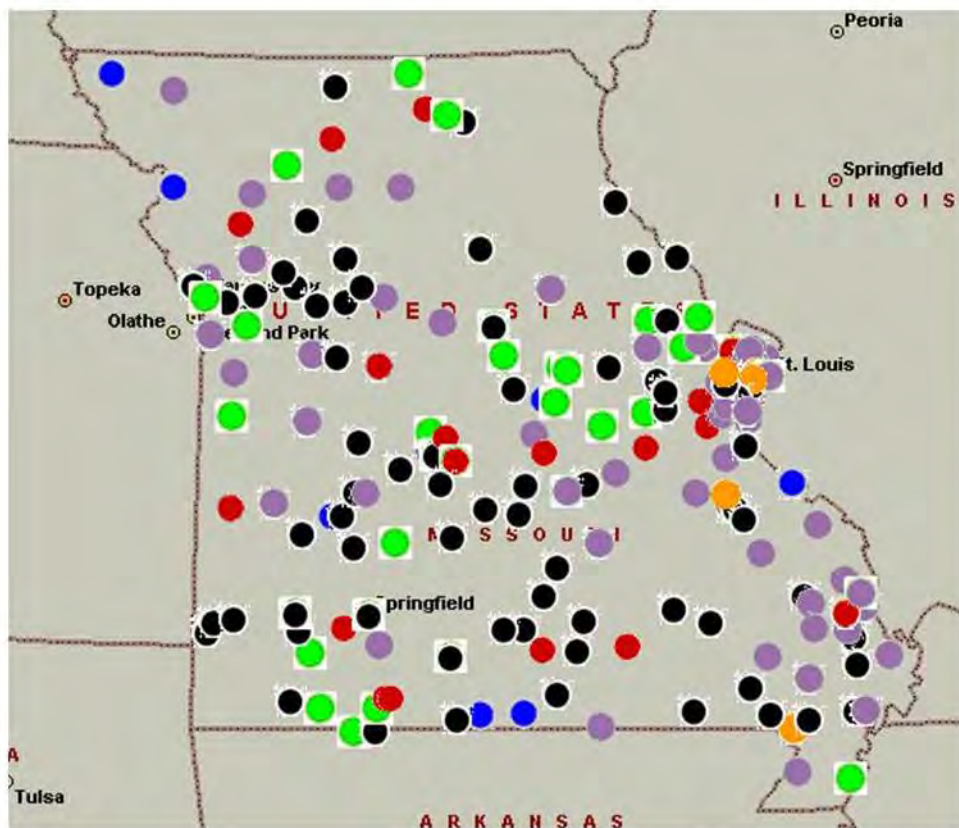

Actual Tax Reported For File Period					
YEAR	FY07	FY08	FY09	FY10	FY11
PAPER	\$1,477,910.93	\$1,401,276.34	\$1,351,452.78	\$1,278,620.17	\$1,182,732.14
PULL-TAB	\$764,138.27	\$718,314.15	\$864,143.90	\$900,904.72	\$954,922.01

The charts below reflect the total bingo taxes deposited and the total number of licensees over the past four years. The bingo tax deposited is different than the tax reported per file period because of the due date of reporting. Reports are due the last day of the month following the month in which the bingo card or pull-tab was sold; therefore, the tax collected for certain file periods during the fiscal year may be included in different fiscal year deposits.

# Missouri State Highway Patrol

The Gaming Division, pursuant to a memorandum of understanding with the Missouri Gaming Commission, provides criminal and regulatory enforcement of gaming operations within the state. Under the command of Captain Kevin A. Geiger, the division is divided into four sections: Administrative Services, Investigations, Eastern District Enforcement and Western District Enforcement. The Gaming Division is one of the Patrol's largest divisions, with an authorized strength of 120 uniformed members and two civilians and one student intern. The staffing of 120 troopers assigned to the Gaming Division does not impact or reduce the number of troopers assigned to patrol Missouri roadways, as allocated by the legislature.

The Gaming Division was established on May 1, 1994, by order of Colonel Fred M. Mills, and was the first new division established within the Patrol since the creation of the Division of Drug and Crime Control in 1983. Strict criminal and regulatory enforcement, as well as meticulous investigations are essential elements to the successful regulation of legalized gambling in Missouri. Because of its history of service with distinction and integrity, the Patrol was given the responsibility of providing investigative, regulatory and criminal law enforcement services, which ultimately police the gaming industry.

The Administrative Services Section, under the supervision of Lieutenant D. Keith Johnson oversees the collection and preservation of evidence and property, motor equipment fleet management, training, criminal records, case management, overtime, personnel actions and special projects. The Administrative Services Section processed 414 containers of criminal evidence during the last reporting period.

The Investigations Section, under the supervision of Lieutenant Rex M. Scism is divided into two units, the Background Unit and the Charitable Games Unit. The Background Unit was involved with 509 investigations during the past year to determine the suitability of licensees, suppliers and vendors. The Charitable Games Unit oversees 339 licensed bingo operators and is also charged with conducting background investigations on both charitable gaming and riverboat supplier companies. During the last reporting period, 11 felons were denied authority to participate in bingo operations due to the efforts of the Investigation Section.

The Enforcement Section is divided into two districts. The Eastern District is under the supervision of Lieutenant Andrew J. Ley. The Western District is under the supervision of Lieutenant Robert E. Zubeck. Officers assigned to the Enforcement Units are responsible for enforcing both Missouri criminal statutes and Missouri Gaming Commission regulations on the 13 licensed casino properties. The number of licensed casino properties went down to 12 with the closing of the President Casino and the subsequent surrendering of their Gaming License to the Missouri Gaming Commission. This license was later awarded to Isle of Capri who is currently building a casino in Cape Girardeau scheduled to open in 2012. Troopers assigned to the Enforcement Units conducted 2,275 criminal investigations, made 3,300 arrests, generated 8,860 Gaming Reports and processed 666 disassociated persons (problem gamblers).

All four sections of the Patrol's Gaming Division are provided clerical support from the Administrative Office Support Assistant, Mrs. Jill E. Speckhals, Information Analyst, Ms. Faith A. Anderson and Student Intern Ms. Caitlin P. Fall.

The following charts depict arrests and other activities for all casinos statewide:

# Disassociated Persons Program

MGC has a statewide voluntary self-exclusion program, also known as the List of Disassociated Persons, providing problem and compulsive gamblers with a means to acknowledge they have a problem and to take personal responsibility for it. There were 15,853 individuals on the List at the close of Fiscal Year 2011.

In addition, MGC is a member of the Missouri Alliance to Curb Problem Gambling. The Alliance is responsible for addressing the public health implications of gambling and problem gambling.

## List of Excluded Persons

The Commission's power to exclude persons from Missouri riverboat gaming casinos emanates from the Missouri Gaming Statute and, more specifically, the State Regulations. Under these provisions the Commission has the power and duty to exclude persons who have committed crimes of moral turpitude or gambling related crimes, as well as persons of unsavory reputation or persons on a valid and current exclusion list from another jurisdiction within the United States.

Our Involuntary Exclusion List is available to review online and can be accessed directly from the Commission's home page at [www.mgc.dps.mo.gov](http://www.mgc.dps.mo.gov). The involuntary exclusion list features identifying information and a photograph of each person on the list.

## Licensing

The Missouri Gaming Commission has statutory responsibility for licensing excursion gambling boats, their parent companies, suppliers of gaming equipment, and the officers, directors, trustees, proprietors, managing agents, and general managers thereof, as well as all employees participating in gaming operations within the state in any capacity. Licensing of entities and individuals ensures the businesses and employees involved in the gaming industry in Missouri meet the standards established by the Commission and are suitable to hold a license. Licensing staff currently administers the licensing and annual license renewal processes of twelve excursion gambling boats, six parent companies, thirty-four supplier licensees and applicants, twelve liquor licensees, and approximately 11,000 occupational licensees.

An enhanced statewide automated licensing system provides a vehicle through which each casino's human resources department can enter occupational licensee applicant data and submit license renewals via a web-based link. The system facilitates the commission's ability to license and track all entity and occupational licenses, as well as generate monthly invoices for fees associated with applications, licenses issued, duplicate licenses, and renewals. Licensing fees generate in excess of \$1.75 million per year, while background investigations conducted on licensees result in approximately \$1 million in reimbursable expenses.

### Financial Investigations

The Financial Investigations Section consists of former Internal Revenue Service analysts and investigators who are trained in the areas of corporate finance, organizational structures and SEC reporting and who possess the necessary expertise to complete comprehensive corporate financial and legal investigations. These investigators conduct background and financial investigations on corporate applicants, partnerships, limited liability companies, sole proprietorships and publicly traded corporations applying for gaming licenses in Missouri, as well as the officers, directors, trustees, proprietors, managing agents, general managers and beneficial shareholders thereof.

This corporate investigation includes a review of the financial viability of a company for the five-year period preceding the application, and incorporates reference checks with the SEC to determine if the company is or has been the subject of an investigation for any illegal activity.

Additionally, each registered publicly traded corporation is constantly monitored which includes a review of all SEC filings, forms and reports, press releases and other financial and legal disclosures.

### Sources of Gaming Revenue:

**Local Portion of AGR Tax - 2.1%:** Allocated to support police patrols, fire marine unit supplies and conduct public safety related capital improvements on the riverfront.

**Local Portion of Admission Fee - \$1.00:** Allocated primarily to the City's Capital Fund and Port Authority. These funds are budgeted each year for items such as arterial street paving, bridge repair, rolling stock replacement, public building improvements, development efforts, etc.

**Port Authority Lease (2% of AGR):** With the closure of the President Casino on the Landing in July, 2010, the City's Port Authority is no longer receiving lease payments.
